COL. DOUGLAS E. PUCKETT
CHIEF OF POLICE

The Shepherdsville Police Department has implemented an E-mail Alert System. We will use this system to notify you of information that we feel will be useful to you.

Let me give you several examples of how this system would be helpful to you.

1. If we received information about scam artists preying on unsuspecting citizens, we would notify potential victims of what to do and watch for.
2. Information on wanted persons will be disseminated to the public for their assistance in locating them.
3. You could be notified of road closings
4. You will receive various crime prevention information.
5. Notification of potentially dangerous situations.
6. Information on missing persons will be disseminated to the public for their assistance in locating them.
7. Any other law enforcement information that would be mutually beneficial.

These are just a few examples of uses for these systems. There are many, many more uses.

All you need to do to become a member is give us the below information so that we can enter you in our data base so that you can start receiving these notifications.

Sincerely;

Colonel Douglas E. Puckett
Chief of Police

I would like to participate in the E-mail Alert System.
